Also, it

was talked about how technology might help the students on the edge of dropping, failing, or withdrawing from a class to be successful. Vice President Delaney will be sending a representative to the Faculty Senate meeting this coming Monday so that SGA has a presence at the table. Yen Rodriguez approached Vice President Delaney and President Roberson about having some of his students attend the SGA tailgate this coming Saturday as part of their exchange experience from Florida. Please be on the lookout for them and invite with a warm KSU welcome! Lastly, Vice President Delaney spoke about SGA attending the Georgia Collegiate Leadership Conference (GCLC) at UGA. The conference will be held on February 26th and 27th, however, to save money, SGA will only be attending the 27th day. a. Interns Behrend, Sisavath, and Bodony- their personal project is being done by all of the interns as a group project. They are working on making more side walks and trails on campus as there are worn out areas and they will provide safer walking. We would switch between mulch trails and concrete sidewalk depending on where it is in order to make it look good. There are many places on both campuses. Some of these require only maintenance. They want to make the campus more mobile/accessible for disabled students. They want to fix up the Marietta campus disk golf course. They want to make disks for disk golf accessible to rent for students from the campus. Many students on the Marietta campus said they'd like to see more flowers and other decor to make campus look better.
